REMARKS

The figures of births and deaths shown in this statement for the week ending the 14th December, 1957 relate to 150 towns with an estimated population of 19,880 thousands. Information about Assam, Bihar, Bombay, Madhya Pradesh, and West Bengal, could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 47% of the total number of towns representing 46% of the total population

is covered in this statement. The number of births and deaths recorded in these towns were 14,937 and 5,718 representing birth and death rates of 93.1 and 15.0 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States:—
